Stone Age Art

Autumn 2024 Year 3

By Hannah and Amelie

Our ancestors painted on the caves of France and Spain about 30 000 years ago.
They made hand prints and drew the animals they hunted for food. This told us about their lives.

From clay we made our own lion man sculptures using tools to make marks. We drew round our hands on paper and painted around the shapes in different tints and shades of brown. A tint is a colour with white added and a shade is a colour with black added. We looked very carefully at pictures of animals that were alive then and used charcoal and soft pencils to draw animals like bison and mammoths.
